Generative AI Content Creation

Image Editing

Graphic Design

Nov 7, 2025

Seetha rama swamy Thota

has successfully completed the online Specialization

Generative AI in Adobe Creative Cloud

This specialization will help you learn how to use generative AI tools within Adobe Creative Cloud to create stunning visuals and professional designs. You'll explore how to generate content with AI, edit and retouch images in Photoshop, and build vector graphics in Illustrator. The program emphasizes creative control, visual storytelling, and AI-enhanced workflows. You'll complete hands-on projects and build a portfolio that showcases their ability to ideate, design, and refine content using Adobe's latest tools.
